There are 3 things Junior Rangers always remember to do.

Read the Junior Ranger Way below. Then look for the underlined words in the find a word puzzle.

Which word can't be found? - - - - -

1. KNOW BEFORE YOU GO

Junior Rangers are always prepared for their next park adventure.

- Find out about the park you are going to visit and what you can do there.
- Check the weather before you go and make sure you have the right equipment, clothes and footwear with you.
- Take plenty of food, water to drink, and sun protection.

2. KEEP YOUR PARKS WILD

Junior Rangers know that a park is a special home for native animals and plants.

- Respect animals' homes by leaving plants, shells, logs and even rocks where you find them.
- Animals are healthiest eating their natural foods, so only share your food with other people.
- Never walk up to wildlife because it might become frightened and try to protect itself.
- Use all your senses to connect with the natural environment.

3. LEAVE NO TRACE

When Junior Rangers visit a park you would never know they had been there!

- Leave everything as you find it. The best souvenirs of your adventure are your memories. Take photos, drawings or write about your experiences in your nature diary.
- Respect any evidence of the past that you might find. Parks protect our history.
- Keep yourself safe and protect the park by staying on walking tracks and not damaging vegetation.
- Take all food scraps and rubbish home to put in the bin or recycle.
- Only camp where allowed and keep your campsite small and tidy.
- Only light fires in fireplaces provided and always put the fire out completely.

Answer: wildlife
