

JUNIOR RANGERS

KNOTS FOR CAMPING AND FISHING

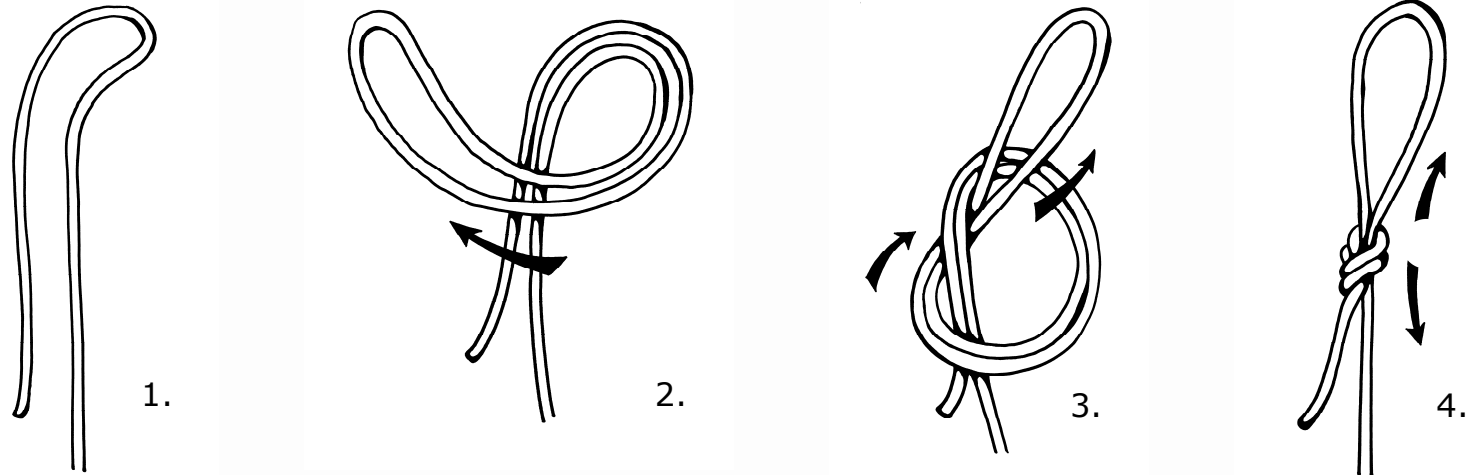

Knot tying is a skill which comes in handy for camping, fishing or even doing general tasks around the house! Unfortunately most people don't know how to tie a proper knot and when they do have to tie something, they make random loops and passes until they have something that resembles a knot, but isn't as secure as it should be.

In addition to the knots we've listed here, there are other knots which will do the tasks required; however we've found these knots to be simple and effective.

Fishing knots

Double overhand loop

This knot is useful to easily attach a hook to a fishing line.

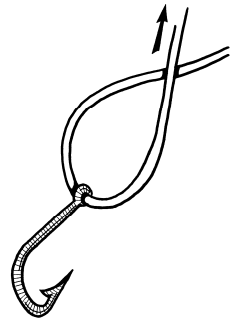

JUNIOR RANGERS

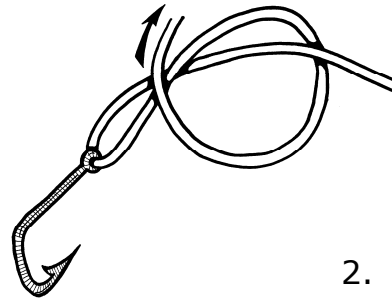

Fishing knots

Universal knot

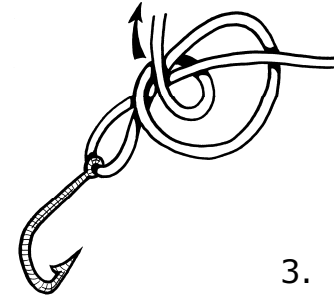

This is a truly 'universal' knot which is simple, yet strong. Ideal for attaching fishing line directly to hooks, swivels and other tackle.

BORN TO EXPLORE

Fishing knots

Albright knot

This is a good knot for attaching two sections of fishing line. Commonly used when attaching thicker line (leader material) to the main fishing line.

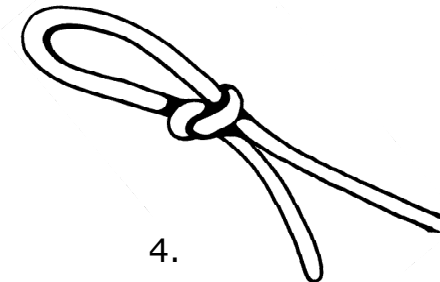

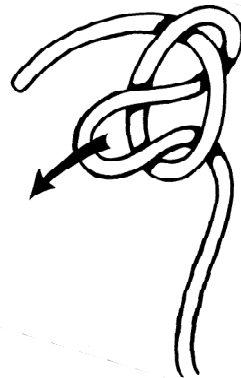

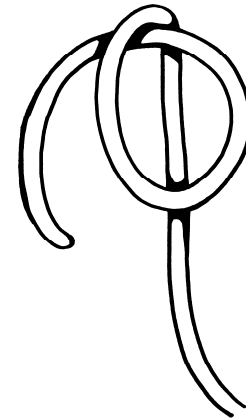

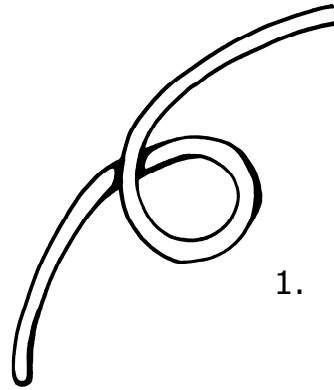

JUNIOR RANGERS

Camping knots

Slip knot

This handy knot is most commonly used to attach rope loosely to an object.

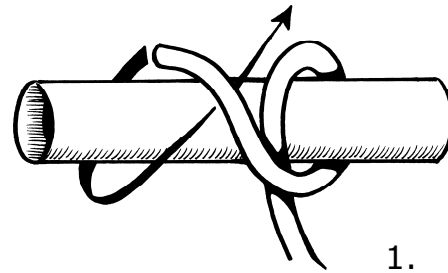

JUNIOR RANGERS

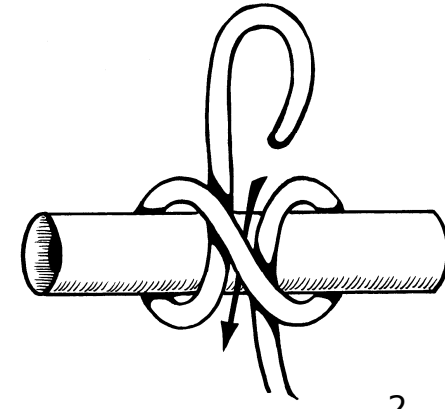

Camping knots

Clove hitch

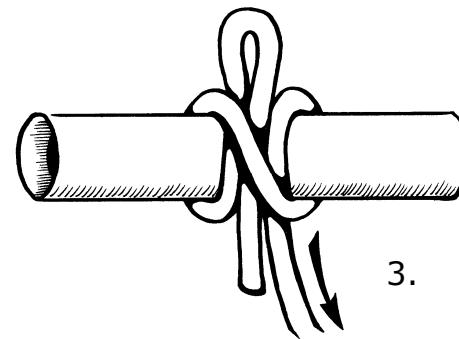

This simple and strong knot is used to securely fix a rope to items such as rails or posts.
